Gyroplane ELA 10 ECLIPSE

Y-m-d H:m:s admin

DESCRIPTION

Twin seat fully enclosed gyroplane in tandem configuration with a vanguard design and “Premium” finish as standard. The 10-Eclipse is a sexy gyroplane, with a sharp design but harmonic, where every detail has been taken care of both the exterior and interior. The mast, landing gear, wheels, engine ... everything has been faired to give the 10-Eclipse a spectacular finish.

The interior finish is a work of art, only comparable to the most exclusive cars. Their seats, the upholsteries, the choice of colors ... everything has been carefully made to ensure that all the flight hours you spend in the 10-Eclipse are a real pleasure.
